About Me

Passionate Frontend Developer with 3+ years of experience building userfriendly, responsive, and scalable web applications using React.js, Next.js, Redux Toolkit, and TypeScript. Skilled in writing clean, maintainable code and collaborating with cross-functional teams to deliver high-quality digital products. Experienced in creating advanced frontend visuals and 3D interactive experiences using Spline and Three.js.

WORK EXPERIENCE

Sevati.ai - Jun 2023 - present

Frontend Developer

- Built 3D interactive visuals using Spline and Three.js.
- Developed SEO-optimized Next.js layouts with SCSS modules.
- Integrated DigitalOcean Spaces for media management.
- Ensured pixel-perfect, high-performance UI.

SmartCode - Mar 2023 - present

Frontend Lecturer

- Teach HTML, CSS, and responsive design to students.
- Lead coding sessions and guide real-world projects.
- Help learners improve frontend and debugging skills.

Cypress - Oct 2022 - Oct 2023

Frontend Developer

- Built a React.js platform for SMM managers to plan and schedule posts.
- Integrated APIs for automatic cross-platform publishing.
- Delivered responsive UI with reusable components.

Solicy - Feb 2022 - Oct 2022

Software Developer

- Contributed to projects in crypto and recruitment sectors.
- Built a DAO Maker–style crypto platform with wallet integration. Created recruitment platform with modern UI/UX.
